Pachymeter P-1

The handy pachymeter Takagi P1 is portable and light weight.

In spite of its small dimensions it includes a built in thermal printer.

Features:

- Full Automation
- Automatic Calculation of Intra-Occular-Pressure (IOP)
- Memorise up to 8 sets of data per eye
- Rechargeable battery with adapter
- LCD allows clear view of results
- Portable and light weight
- Built-in thermal printer
- Measured data can easily be exported as a data file

Technical Details

Probe Type	Solid type 45° with angle (Disposable tip is available optional)
Transducer Frequency	20MHz ± 20%
Minimum Display Unit	1µ m
Measuring Range	150 to 1,200 µ m
Data recording	Built-in thermal printer
Monitor Screen	STN liquid crystalline display panel, 2.7 inch black and white
Power Requirements	AC120V, 60Hz 30W or AC230V 50Hz 125MA
Dimensions	118mm (W) x 207mm (D) x 59mm (H)
Weight	530g only
